

## **Teterboro Airport Operations Bulletin # 2011-21**

**Date:** August 29, 2011  
**To:** Airport Tenants and Users  
**Subject:** AIRPORT REOPENING

---

Flooding conditions on the airport have rescinded, however the status of airfield lighting is unknown at this time due to flooding in the vault. Therefore, Teterboro Airport will open for aircraft departures only, **Monday, August 29, 2011 from 1700L until 1900L.**

The airport will close overnight and reopen again **Tuesday, August 30, 2011 at 0700L**. We will assess the airfield lighting vault status by noon Tuesday and provide an update. Please keep in mind that all areas on the AOA are not accessible. Operations will work with the ATCT and the issuance of NOTAMS regarding useable pavement. Also, at this time the only FBO ramps available are First Aviation, Jet Aviation and Signature East. We appreciate your patience.

**BE SURE TO CHECK FAA NOTAMS FOR SPECIFIC TIMES.**
